Group Agreements

Respectful

- Start and end on time.
- Listen actively (and without distractions).
- Mute yourself when not speaking.

Responsible

- Your participation will result in systems and practices that will benefit all students.
- Participate in live or virtual discussions and activities.
- Practice self care.
- Give your full attention.

Committed

- Expect to begin tasks that will need to be finished later.
- Expect committed trainers that will provide feedback and encouragement and meet you where you are.

Training Objectives

Teams will:

- Learn core features of Tier 2 and connections to Tier 1
- Understand the role/function of an Intervention Team
- Identify current Tiered Supports at your site
- Create Data Decision Rules and Refine the RFA Process
- Begin to build an Intervention Inventory

Strong Tier 2 Intervention Systems:

needing supports

Tier 1 Team

- Meets at least 1 time per month (use TIPS)
- Feedback from staff, students, and families
- Analyze school-wide data
Implement solutions
school-wide problems and
monitor outcomes

Tier 2

- Meet 2 or more times per month (Intervention Meeting Document)
- Use data decision rules and RFA for selecting students for interventions
- Monitor progress of students receiving interventions

1. Identify & select student in need of Tier II-III supports 2. Coordinate implementation of Tier II- III systems and supports 3. Establish and facilitate individual support teams as needed 4. Monitor systems & interventions for fidelity of implementation 5. Monitor overall status of student progress towards goals.						Respect - Before meeting, complete tasks, inform facilitator of absence/tardy, avoid side talk - During meeting, avoid side talk, stay focused - Start and end meeting on time Relevance - Question fidelity of implementation - Make data based decisions based on precision statements (what, where, when, who, why & how often) Reality - Think about feasibility, social acceptability, & contextual fit

Tier 2 Screening and Data Decision Rules

TFI Items related to this section:

- **2.3 Screening:** Tier 2 team uses decision rules and multiple sources of data (e.g., ODRs, academic progress, screening tools, attendance, teacher/family/student nominations) to identify students who require Tier 2 supports.

Identification and Referral: Two Main Sources

- Data indicates at-risk status based on data

OR

- Staff, Student or Family requests assistance

Sample data sources for identifying students in need of additional support

Data Source	Who Reviews the Data	Frequency of Review	Criteria for Intervention Team Referral/Review
SWIS behavior referral data – Majors	Kerri		Students who are major behavior
SWIS behavior referral data – Minors			
Attendance			
SRSS-IE	Danae		Students who are one category to high in both
Health Office logs	Cassandra	Monthly	Students who have more than 3 visits to the nurse or requests to go home sick per month.

Optional Social-Emotional-Behavioral Screeners

Example: Student Risk Screening Scale – Internalizing and Externalizing (SRSS-IE)

Is your site or district already using a universal screener? What one? How is it administered? How/who uses the data? 

Document 206

DATE:			Student Risk Screening Scale - Internalizing and Externalizing (SRSS-IE) 2.0															
TEACHER NAME:			ELEMENTARY USE															
0 = Never 1 = Occasionally 2 = Sometimes 3 = Frequently Use the above scale to rate each item for each student.																		
Student Name	Student ID	Count	Steal	Lie, Cheat, Sneak	Behavior Problem	Peer Rejection	Low Academic Achievement	Negative Attitude	Aggressive Behavior	Emotionally Flat	Socially Withdrawn	Depressed	Anxious	Lonely	SRSS-E TOTAL	SRSS-I TOTAL	SRSS TOTAL SCORE	
Example: Smith, Sally	11111	0	0												9	11		
															12	0	12	
															5	12	17	

High Risk Internalizing

High Risk Externalizing

High Risk Internalizing,

Example Screener Process...

At the beginning of the year, consent forms sent to parents/caregivers

Admin and/or other staff follow up with parents that do not want to participate, have questions, or forgot to sign.

Screeners are scheduled for the year and given to students

Data is analyzed by the Intervention team and students are placed in interventions

Advice and Planning...

Can use a google form to create spreadsheet of information

Be prepared for more students than you expected needing immediate support (high risk)

Plan time for parent communication
A phone call or in person is best

Teachers need to know how, why, who, when, and where when it comes to getting information back to parents

SWIS behavior referral data – Majors			Students receiving ____ or more majors
SWIS behavior referral data – Minors			Students who are in the top 20% of minor behavior referrals
Attendance			Students missing more than 10% of school
SRSS-IE			Students rated high risk in at least one subcategory, or moderate to high in both
Grades			Students with two or more failing grades

Request for Assistance Process

TFI Items related to this section:

- **2.4 Request for Assistance:** Tier 2 planning team uses written request for assistance form and process that are timely and available to all staff, families, and students.

Identification and Referral: Two Main Sources

- Data indicates at-risk status based on data

OR

- Staff, Student or Family requests assistance

We need to look for more than just the squeaky wheel...

- Really “loud wheels” often take up most of our attention (e.g., very disruptive/dangerous behaviors).
- BUT.... some wheels have been broken for years, sometimes repeatedly, but they aren’t making any noise at all.

We need to make sure that we are keeping our eyes and ears open for ALL kinds of indicators that support is needed!

Request for Assistance:

What if the data alone doesn't alert us of a student in need of support?

- The Tier 2/Intervention Team uses written request for assistance form and process.
- The process is timely and available to all staff, families, and students.

We already use a SST (Student Study Team) form...
why create another form?

Request for Assistance Form

- **Condensed** (1-2 pages)
- **Concise**, use of check boxes and less narrative
- Includes **academics and behavior**
- Prompt asking **what has been implemented already** (e.g. re-teaching expected behavior, modifying environment, consequences)
- Space to indicate **student strengths**
- Prompt to include **perceived motivation**

Generalization of Skills

When developing your interventions, remember to consider whether a bridge needs to be put in place to help skills learned in a small group setting transfer into the “real world”.

- Tier 2 interventions are intended to be short-term
- Fading Tier 2 supports (and incentives) should be intentional and systematic
