YOLO COUNTY SPECIAL EDUCATION
LOCAL PLAN AREA (SELPA)

PROGRAM TRANSFERS

PROCEDURES:

Definition

A Program Transfer occurs when an educational agency relinquishes administrative responsibility (employment of teacher and aide, provision of materials, equipment, housing and the students) for a program or service to another educational agency plus any associated funding.

It is the intent of the Special Education Local Plan Area (SELPA) to provide a Free and Appropriate Public Education (FAPE) to all eligible students. In both non-regional program transfers and regional program transfers, the new program operator shall be responsible for administrative activities such as scheduling Individualized Education Program (IEP) meetings, transfer of files, coordination of related services, notification to parents, and other activities associated with the program transfer.

A non-regional program transfer involves the transfer, back to a district, of one or more classes or a number of students equal to one or more classes and/or a specific handicapping category. The responsibility for non-resident students who were part of the original transferred class should be designated in the transfer plan.

A regional program is a program identified by the SELPA and the advisory groups PAC Program Administrators’ & Chief Business Officials Joint Committee (PAC/CBO), and Community Advisory Committee (CAC) that provides services to students who are residents of multiple local educational agencies. Regional programs are identified in the annual service plan and monitored annually by the SELPA.

- If the new service provider is a district that intends to continue to service students from the entire region, then the transfer plan will include a description of the funding model and service model.
PROCEDURE 0430.406

PROGRAM TRANSFERS (Continued)

- If the proposed regional program is being operated solely by a district, the district does not automatically become a regional service provider. If the district is NOT going to continue to provide services to the entire region, THEN BOTH PARTIES (Current Program Operator and Prospective Program Operator) will need to account in the transfer plan for how those other affected students will access the services that they were receiving from the program prior to the transfer.

- A regional provider who no longer chooses to be a regional provider will begin the program transfer process.

A non-regional program transfer shall address the needs of all affected students to assure the full continuum of services is available.

**Itinerant Service Transfers**

An itinerant service transfer occurs when an educational agency relinquishes administrative responsibility and funding for providing an itinerant service (i.e., itinerant teacher(s) for students who are deaf, hard of hearing, visually impaired, or who require adapted physical education or assistive technology support) to another educational agency. Itinerant service transfers are considered a program transfer will follow all of the guidelines for program transfers outlined in Procedure 0430.406.

- If the educational agency to which the service is transferred intends to continue to provide the itinerant service to students from the entire region, then the transfer plan will include a description of the funding model and service model.

- If the educational agency to which the service is transferred intends to only provide the service students served by the district, THEN BOTH PARTIES (Current Itinerant Service Provider and Prospective Itinerant Service Provider) shall provide for how those other affected students will access the itinerant services that they were receiving prior to the transfer in the transfer plan. The transfer plan shall address the needs of all affected students to assure the full continuum of services is available.
