A WELL RUN IEP MEETING CAN LEAD TO SUCCESSFUL OUTCOMES FOR ALL INVOLVED STAKEHOLDERS AND BEST SUPPORTS STUDENTS’ ACADEMIC, SOCIAL-EMOTIONAL, AND BEHAVIORAL NEEDS.

Within this academy, participants will
- deepen their understanding of the roles and responsibilities of the IEP team
- learn key technical information to ensure IEP meeting compliance.
- develop awareness of what causes potential conflict during meetings
- learn and apply mindfulness strategies to de-escalate and successfully navigate with and through conflict.

During this 3 session academy, participants will engage in small group discussion, interactive lecture, reading, video observation, simulations, and other experiential learning. As a result of this academy participants will be better prepared to successfully facilitate compliant IEP meetings, support all stakeholders, and most importantly support student learning.
